## Asteroids video game machine

Good morning, everyone... i want to say before I start that I know that this will take a very long time and tons of a job to do. I tried. But... im wondering if someone can tell me exactly how to make a REAL 3d video game. I know that sick models need ... and texture ... And the sound... and all that crap. But, for me, .exe's a big part because thatz is basically the hardest (ish) part. I did a little model and I can do some texturing though, it's not great. I realize that you would say Get a program to make it look like gamemaker but... i tried that and it really didn't pleas me. I mean... I want the game to be my %100. I want to encrypt it from scratch. I know that this is VERY VERY hard, but I am willing to put time into it. I have almost every night of the week, and the weekends to work on it for lik 5-12 hours, so I have time. I just need to know how to make exe and use other game files with it. I know im asking a lot ... but I really want 2 to do it. It'll drive me crazy if I don't. And, if you can... i want to make it a ps2 game. Please do not answer if you cant / arent will help me because .... Good... i just want to make my game. SO PLEASE HELP ME!!!!!!!!! Thank you in advance. Please ask any questions about what I want to do. Thank! Polite if you are connected to the game world - through your kids or as a gaming fan - you probably already know about some of the most popular trends in video games right now. But otherwise, U.S. market research firm NPD recently published a list of 2020 best-selling video games to date. The company looks at digital and retail sales to determine what games people are buying. While some longtime family favorites are still popular, violent video games like online multiple-player shooters also dominate, which can involve parents. That's why each video game comes with age and content ratings from the Entertainment Software Rating Board, making it very important for parents to educate themselves about these ratings, so that they can decide which video game is right for their child. Video games get a lot of scrutiny, but parents should also keep in mind other places where their children may be exposed to violence such as movies, TV and the Internet. At the end of the day, parents have to make a call when it comes to their kids and violent video games, said Umang Jain, co-founder of tech gaming company ed SplashLearn.We looked at a list of NPD's, as well as a list of all-time best-selling games from IGN, a popular video game site, to identify the best video games on the market right now. We've included their ratings so you can make a purchase if you plan to donate one of these to the player in your life.
